This matter is before the Court on defendant's motion to reduce sentence (Filing No. 76), and the stipulation of the parties (Filing No. 79). The retroactive amendment to the cocaine base guideline changes the total (final) offense level from 38 to 36. The government and defense agree that the new sentence should be one hundred fifty-one (151) months imprisonment, based on the prior computation of specific offense characteristics, adjustments, and any departures. Considering the time served and credit for good time,

IT IS ORDERED that said motion is granted and the stipulation of the parties is approved and adopted; the sentence of the defendant is reduced to a term of one hundred fifty-one (151) months. He shall receive credit for all time served. The

conditions of supervised release entered in the original judgment and committal order remain in full force and effect.

DATED this 30th day of May, 2008.
